

ADITYA POOJARI

Senior Full Stack Developer (Angular • .NET / ASP.NET Core) — AdTech & Enterprise Platforms

Bangalore, India | +91 8073830319 | adityapoojari71@gmail.com | linkedin.com/in/adityapoojari-592224195

SUMMARY

Senior Full Stack Developer with 5+ years building enterprise AdTech platforms — campaign management, advertiser onboarding, and reporting — using Angular, ASP.NET Core, C#, and SQL Server. Hands-on experience designing RESTful APIs, scalable Angular applications, authentication and authorization, API/database optimization, and enterprise third-party integrations with CM360, DV360, Google Ad Manager, Meta Ads, and The Trade Desk. Experienced in Agile/Scrum delivery, code reviews, production troubleshooting, and cross-functional collaboration.

TECHNICAL SKILLS

Frontend: Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, PrimeNG, Bootstrap

Backend: C#, .NET, ASP.NET Core, RESTful APIs, Entity Framework Core, LINQ, ASP.NET Identity

Database: SQL Server, T-SQL, Query Optimization, Indexing

Security: JWT Authentication, Authentication & Authorization, Azure AD

Cloud & DevOps: Azure DevOps, Git, CI/CD

AdTech Integrations: CM360, DV360, Google Ad Manager, Meta Ads, The Trade Desk

Tools: Visual Studio, VS Code, Postman, Airtable, ClickUp, Microsoft Clarity

Methodologies: Agile / Scrum, Code Review, Sprint Planning, Estimation, Cross-functional Collaboration

EXPERIENCE

Software Developer

Rare Crew Technologies

Jun 2023 – Present

Bangalore

- Develop and maintain an enterprise-scale campaign management platform using Angular, ASP.NET Core, C#, and SQL Server, supporting 1000+ advertisers and hundreds of thousands of campaigns for global ad operations.
- Design and implement scalable RESTful APIs for campaign setup, advertiser onboarding, creative management, and reporting workflows, reducing advertiser onboarding time by 30%.
- Develop Angular modules, reusable components, dashboards, and reporting features using TypeScript and PrimeNG, improving campaign visibility for 50+ stakeholders.
- Integrate Google Campaign Manager, DV360, Google Ad Manager, Meta Ads, and The Trade Desk, enabling cross-platform campaign execution and reducing manual reconciliation effort by 40%.
- Build REST integrations with Airtable, ClickUp, and Microsoft Clarity, automating data synchronization and analytics reporting across business systems.
- Optimize high-volume API and database operations using EF Core, LINQ, SQL query optimization, and indexing, improving API response time by 35%.
- Implement secure authentication and authorization using JWT and Azure AD, and troubleshoot production issues involving APIs, databases, authentication, and third-party integrations.
- Participate in code reviews, sprint planning, estimation, and Agile/Scrum delivery while collaborating with product managers, QA, and cross-functional teams.

Front End Engineer

VIVASVA Software India Pvt Ltd

Jan 2023 – May 2023

Bangalore

- Delivered Angular-based front-end modules for property management platforms serving enterprise customers across the USA and Australia.
- Integrated frontend modules with backend REST APIs, ensuring efficient data exchange and seamless user workflows.
- Improved application responsiveness and usability through component optimization, reusable UI development, and modern front-end practices.
- Collaborated with stakeholders and QA to deliver production-ready features on schedule.

Software Developer

Coworks Solutions Pvt Ltd

Jan 2021 – Jan 2023

Bangalore

- Developed full-stack web application modules using Angular and REST APIs, contributing to scalable and maintainable application features.
- Designed and implemented marketplace functionality supporting online transactions and customer interactions.
- Contributed to platform enhancements that improved customer retention by 25%.
- Strengthened application security and API architecture to better protect sensitive user data.
- Improved frontend architecture for scalability and maintainability, supporting 10,000+ concurrent users / features.

PROJECTS

Dating Application — ASP.NET Core Web API & Angular

- Implemented secure authentication/authorization using JWT and ASP.NET Identity, including token refresh handling.
- Built profile management with image uploads and customization, and a real-time messaging system between users.
- Designed filtering/matching logic to improve user engagement, backed by RESTful APIs connecting Angular and ASP.NET Core.

EDUCATION

Manipal Institute of Technology — Master of Computer Applications (MCA), CGPA: 8.45/10 2019 – 2021

Bhandarkar's College, Kundapura — Bachelor of Computer Applications (BCA), 86% 2016 – 2019

CERTIFICATIONS

- Build an App with ASP.NET Core and Angular from Scratch — Udemy
- .NET Entity Framework in Depth – Complete Guide
- Modern JavaScript Course
